

ML-T: Expect Simply More

Save Bench Space without Sacrificing Accuracy or Safety

50% Off New Data Writer*

For a Limited Time: Get a New Data Writer for 50% Off!

For a limited time, when you purchase a new compact ML-T balance, you get 50 percent off a data writer. We offer flexible reporting and labeling options to help you to eliminate transcription errors, speed up working processes and ensure traceability. Register for 50% off your new data writer now!

- **Space-saving** - a footprint of just 290 x 184 millimeters makes space for tools and peripherals
- **Reliability** - repeatable weighing thanks to FACT and high-precision MonoBloc weighing cells
- **Connectivity** - easy connection to data writer, PCs, and IT systems for secure data management
- **Safety** - features that help you protect yourself and others

Save Space

The ML-T balance line lets you save space on your bench without sacrificing usability. The compact design of the smallest footprint in our portfolio comes in at just 290 x 184 millimeters, easily leaving extra room for your new data writer or other equipment.

Glove Mode – Protect Yourself and Others

Our ML-T balances have features to provide additional user safety. With the function Glove Mode activated, the touch screen becomes easier to navigate when wearing gloves. This is especially important in the current situation, where users might want to protect themselves better by wearing gloves more regularly, to reduce the risk of spreading COVID-19 – especially when balances are shared.
